

## Environmental Policy

Total Peripheral Supplies (TPS) is the market leader in providing turnkey end to end product design, development, testing, servicing and installation of complex video, data, electrical and telecommunications systems. We have a demonstrated track record of delivering complex projects on time and on budget. TPS is based in Clayton, Melbourne, Victoria and has installation and assembly teams situated in all major capital cities. We also have experience working in diverse and remote locations across Australia. Our company is committed to protecting and enhancing the environment in which we operate through continual improvement and prevention of pollution (where applicable). Hence, TPS is committed to effective implementation of the Environmental Management System in compliance with ISO 14001:2015 Standard. The IMS is continually reviewed and improved. Life cycle analysis is reviewed on a product-by-product basis. Our goal is to prevent pollution in the environment and is achieved through:

- Complying with relevant environmental legislation (acts, standards, regulations, codes of practice, guidelines) as well as other requirements that may be pertinent to the company.
- Ensuring all waste is disposed of in the most appropriate and environmentally sensitive way possible - if required, suitably qualified specialist contractors will be engaged for disposal of high-risk waste.
- Establishing, reviewing and communicating the company's environmental objectives to all levels in the organization. The objectives are monitored on an ongoing basis and reviewed during the management review meetings.
- Utilising of resources with consideration for the environmental impact, especially regarding consumption of energy, water, consumables and chemical materials.
- Training and providing information to all employees so that they are aware of our waste management procedures, and so they may be able to carry them out effectively.
- Striving to continually improve our environmental performance and minimise the social impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities.

This policy is communicated to all TPS Staff and Subcontractors through the TPS HSE Sharepoint Site. This policy is also made available to interested parties and the general public upon request.
